Description of Development:			

FLOODPLAIN INFORMATION:		
Property located in a designated flood way?	<input type="checkbox"/> Yes	<input type="checkbox"/> No
If you answered yes, certification must be provided prior to the issuance of a permit to develop, that the proposed development will result in <u>NO</u> increase in the regional flood (100-year) elevation.		
Property located in a designated floodway fringe?	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Elevation of the Regional (100-year) Flood:	MSL/NGVD	
Elevation/floodproofing:	MSL/NGVD	
Elevation of proposed development site (if known):	MSL/NGVD	

This permit is issued with the condition that the first floor (excluding the basement or crawlway) of any new or substantially improved building shall be at or above the flood protection elevation (which is a point two (2) feet above the regional flood elevation). The fill elevation shall be one (1) foot or more above the regional flood elevation extending at least fifteen (15) feet beyond the limits of the structure. The basement or crawlway floor may be placed at the regional flood elevation if it is floodproofed to the flood protection elevation. No basement or crawlway floor is allowed below the regional flood elevation.
